LOOK WHAT BLACKBURN BID DID IN JAN 2020

BLACKBURN BID HAS HELPED PROTECT THOUSANDS OF LIVES WITH LIFE SAVING EQUIPMENT INSTALLED IN MCDONALDS IN BLACKBURN TOWN CENTRE. COULD YOUR BID DO THE SAME?

Catherine Price for Blackburn BID recently oversaw the funding of a lifesaving defibrillator at McDonalds in Blackburn Town Centre.

This vital lifesaving equipment was funded by the Blackburn BID and will now protect the lives of thousands of people visiting or working in Blackburn Town Centre.

LifeAID Defibrillators carried out the installations which also allowed for a large sponsorship display panel to promote that Blackburn BID had funded the equipment.

Some 60000 people a year suffer out of hospital cardiac arrest every year in the UK.

With no defibrillator close by there is only a 5% chance of survival whereas with a defibrillator that rises up to 75%.

COULD YOUR BID FUND DEFIBRILLATORS IN YOUR LOCAL COMMUNITY.
